RESPONSE TO ELECTION OF SPECIES REQUIREMENT

Sir:

In response to the Office Action dated October 22, 2002,
applicant responds as follows:

REMARKS

Applicant hereby elects Species A: drawn to FIGS. 1-6, with
traverse. Applicant submits that claims 1-9 read on Species A.

The traverse is on the grounds that the basic concept and
primary structural elements are the same between the elected and
non-elected species.

Also, the Examiner stated in the office action that no
pending claim was considered to be generic. However, applicant
traverses this point as well and respectfully submits that claim
1 is generic.
